Metropolis Soap Co.

Beauty in simplicity.
Beauty in nature.

What is it?

It's time to use fresh (and natural!) skincare at home! Metropolis Soap Co. is earth-friendly, homemade and crafted from natural plants. Each and every beauty product is made with 12 ingredients or less, and contains no animal byproducts, sulfates or parabens. All Metropolis Soap Co. items are 100% vegan, and have never been tested on animals. Artisanally-crafted by hand in Brooklyn, New York, they are packaged with care and shipped all over the nation. Don't pass up on soft, gentle, beautiful skin!

How it started

"When people ask why I began Metropolis Soap Company, I usually tell them it's a fear of being the smelly kid in class. It's partially true!" says Megan R. Brame, Founder of Metropolis Soap Co. While growing up, Brame's skin issues turned into stress and embarrassment. She started researching how to make her own skin products once she couldn't find what she was looking for. Founded in 2009, Metropolis Soap Co. is the fruit of over 10 years of research, planning, playing, failing, testing and perfecting. Brame is happy to say that she found the cure for not only her face, but so many of her customer's too!

How it works

Since Metropolis Soap Co. avoids synthetic ingredients, their cruelty-free and vegan skincare products are gentle enough for all skin types. Only the finest ingredients are blended together, providing you with simply fresh skin. Become a part of this New York-based soap company before they take over the world. Check out amazing artisan soaps, herbal spa soaks, lip creams, aromatherapy oils and much more at www.metropolissoap.com. Also, enter 'BELLA' discount code at checkout for 10% OFF during the month of March!
